HCAW November 2017 Public Policy Update
Prepared by Leslie Emerick, Governmental Consultant

Legislative Overview

The election was held on November 7th and it is now determined that the Senate will be controlled by the Democrats in 2018 because of the Senate race in the 45th district, formerly held by Senator Andy Hill (R), who passed away from cancer last year leaving an open seat this fall. As of Tuesday night, Democrat Manka Dhingra held a double-digit lead over her 45th District Senate opponent. This means that both houses of the legislature and the Governor's Office will be controlled by the Democrats. Keep in mind that the number of votes between the parties in each house is very close and not all legislators vote the "party line". We could see changes in environmental policy, taxes, voting rights and women's issues to name a few, in the next session.

The 2017 Fall Legislative Days are from November 13-17th this year. I am already meeting with key legislators in their home districts to discuss issues for the upcoming legislative session. HCAW advocacy operates in a bi-partisan way and we meet with representatives on both sides of the aisle. This provides a more balanced approach to getting issues addressed in the legislature.

We still do not know if the state Supreme Court thinks the legislature has accomplished their goal of fulling funding education under the McCleary Decision. If they say no, it will be another difficult session and they only have a 60-day short session to work it out this time. 2017 was the longest legislative session in WA State history with three Special Sessions and over 6 months in session. No one wants a Special Session in 2018 because it's an election year and the entire House of Representatives are up for reelection and half of the Senate. The 2018 Legislative session starts January 8th, 2018.

2017 State Operating Budget Provisos Updates

Home Health Nursing Report Budget Proviso

I did follow up on contacting Gail Kreiger about answering questions in advance of our October 25th meeting, but her schedule was booked. She tried to answer as many questions as we had at the meeting for clarification on the data gathering. We discussed how to get the hospital association more involved.

The data gathering started on October 1 and is underway for home health agencies to report on the access and reduce readmissions from hospitals using home health. If your agency is hospital based and they are having Medicaid patients back up in their facilities, they need to get involved to help get more access to home health care by increasing the reimbursement rates. Brent Korte is doing a great job working with the WA State Hospital Association to "up their game" on this issue!

November 9, 2017

As patients have a tougher time finding a home health agency that accepts Medicaid, hospitals end up keeping patients longer or discharging them without home health services. We need as many home health and private duty nursing agencies as we can get to provide data for the report. This data should provide the justification for Medicaid rate increases in the future. There is a report due to the legislature as an update by December 2017, but the data collection will take until December 2018 before a recommendation on increasing rates for home health will come out from the Health Care Authority.

In a recent meeting with Representative Cody, the Chair of the House Health Care Committee, discussing our Home Health Nursing Report, she wondered why the Managed Care Organizations are not at the table in these discussions. I have requested that she assist me in setting up a meeting with the MCO Directors early in the legislative session to have a discussion on why they are not willing to adequately fund home health when they have patients backed up in hospitals.

Marc Berg Data

Doris and I have been in discussions with Marc Berg about gathering data for the home health report. Gail Kreiger at HCA seemed a little reluctant to pursue alternative data through Medicare or CHARS reports, but we think it might still help make our case. Our meeting with Marc Berg is in Lacey on November 14th.

Hospital Discharges to SNF/AFH/ALF Facilities Report to the Legislature Budget Proviso

This report was initiated by the hospital association to try and get patients with complex care needs out of their facilities and discharge them into Skilled Nursing Facilities/Adult Family Homes /Assisted Living Facilities. I attended a series of three 6-hour work sessions with HCA to provide input on where home health, palliative care or hospice could best be used to facilitate the discharge of complex patients. The report to the legislature is due in December 2017. Sadly, it does not include much information these patients getting access to home health, hospice and palliative care. They are focused mainly on difficult patients to discharge with complex cases.

Department of Health In-Home Services Rules

The long awaited In-Home Services Rules finally are getting a public hearing! The Department of Health (department) filed a CR-102 with the Office of the Code Reviser proposing revisions to the In-Home Services Agencies rules under chapter 246-335 WAC. The purpose of the CR-102 is to notify the public of the department's proposed rules and sets a public hearing date. Current rules have not been updated since 2002, and do not reflect current industry standards. Stakeholders participated in eight rules workshops in 2016 and collaborated with the department to review the chapter and craft the proposed rule language. The proposed rules have been restructured in order to clarify the requirements for home care, home health, and hospice agencies. The proposed rule also clarifies existing requirements that have not been easily understood by licensees. Please visit the department's ["Rules Comment" webpage](#) to:

November 9, 2017

- view the CR-102 and proposed In-Home Services rules (also attached)
- view the Significant Legislative Analysis document (also attached)
- submit a comment regarding the proposed rules (through December 6, 2017)

While the department prefers to take comments through our website, you may also submit comments via post office or fax. Details may be found in the attached CR-102 form. As noted in the **CR-102, a public hearing has been set for 1:00pm on December 6, 2017** at the:

Department of Health, Point Plaza East, Room 152, 310 Israel Rd SE, Tumwater, WA 98501

The purpose of the public hearing is to provide interested parties an opportunity testify (support, concerns, oppose) regarding the proposed rules.

After December 6th, the department will:

- review all submitted comments and testimony, determine if the proposed rules can move forward as written or require any changes (based on comments / testimony), provide responses to all submitted comments / testimony. A CR-103 will be filed afterward review of public hearing comments to announce that the rules are now effective.

- [CR102+In-Home+Services+Agencies+17-22-119.pdf](#)

In-Home Services Roundtable

DOH has a quarterly meeting on October 17 with stakeholders in regulated under the In-Home Services program. We review issues related to home care, home health and hospice. There was discussion around the In-Home Services rules which we expect out any day now! We discussed that the new rules will include a 35% increase in the cost of home care, home health and hospice licenses to pay for increased surveyor costs associated with the program.

Hospice CON Rules

Still no word on the Hospice Certificate of Need (CoN) rules for a CR-102 date. If you are interested in a description of the DOH Rulemaking process go to:

<http://www.doh.wa.gov/AboutUs/RuleMaking/WhatIsRuleMaking>

DOH WA Palliative Care-Rural Health Integration Initiative

Doris and I met with Pat Justis and home health and hospice representatives on October 31st to discuss funding models for palliative care. Ron Jetter of Hearthlinks spoke about his program for funding palliative care. They had to hire an intermediary to work with CMS to get paid. It was so hard to get a live person to speak with that they often missed the 30-day window for payment. The new group finds them a live person to speak with and get claims fixed and filed in a timely manner. There was a good discussion on how to get a funding model in place for palliative care!

WA State Telemedicine Collaborative

November 9, 2017

The next WA State Telehealth Collaborative Meeting is on November 17th @ 1pm-3pm in SeaMar Seattle, 8720 14th Ave S, Seattle, WA 98108 for anyone who would like to attend! I have not seen the agenda for the next meeting yet...

Bree Collaborative

The Bree Collaborative Alzheimer's Disease and Other Dementias workgroup meeting was on November 1st from 9:00 – 10:30am. The meeting will address the public comments and make any changes to the recommendation before final presentation to the Bree Collaborative.

Kaiser News article about the Volunteer Hospice in Clallam County

I thought you might find this interesting. Candice Cheney, Assured Health Care and I (representing WSHPCO) are both quoted in the article...not too bad, but could have used a little more clarity! Here is a link to the article:

Amid a for-profit surge, a Port Angeles hospice has offered free care for 40 years

https://www.seattletimes.com/seattle-news/health/amid-a-for-profit-surge-a-port-angeles-hospice-has-offered-free-care-for-40-years/?utm_source=referral&utm_medium=mobile-app&utm_campaign=ios

WA State Senior Lobby Conference

I attended their Fall conference on October 19th in Tacoma, with a legislative reception the night before. Here is a link to the Dementia Road Map Online/PDF version -

<https://www.dshs.wa.gov/sites/default/files/AL TSA/stakeholders/documents/AD/Dementia%20Road%20Map%20-%20A%20Guide%20for%20Family%20and%20Care%20Partners.pdf>

AARP Care Act

Doris and I have been trying to schedule a meeting with Cathy MacCaul with AARP to discuss legislation related to the Care Act that allows family members to care for patients and get information from the hospital for care when they are released home.

Nursing Care Quality Assurance Commission Opioid Workshop

The next Opioid prescribing workshop is on November 15, 2017, 9 a.m. to 3:30 p.m. in Yakima and I am planning on attending. HB 1427 from the last legislative session requires all five prescribing boards and commissions to develop rules and guidelines for prescribing and included updates to the Prescription Monitoring Program (PMP) in our state. I am watching for any movement towards restrictions for hospice or cancer associated pain.

Memorandum of Understanding

This agreement between BDS Healthcare and Home Care Association of Washington (HCAW), effective November 15, 2017 through December 2018, is for the purpose of retaining BDS Healthcare for project related consulting services.

Due to the home health, hospice and accounting experience and background of Marc Berg, it is the desire of the HCAW Board of Directors, to engage Marc Berg of BDS Healthcare, in providing high level review of data prepared by home health agencies for submission to the state for the 2018 report to the legislature. This review will occur prior to the agency data submission to the state. The intent of the review is to note any aberrations or obvious errors. If aberrations are found, Marc will contact the agency to point out the aberration, ask them to double check accuracy of data and/or provide reasoning for the noted aberration prior to submission.

The intent of the review is not to **verify** accuracy of data from any particular agency or source, but to provide a high level review from the perspective of an industry statistician and accounting expert, that will lend to more accurate data in the report.

Marc agrees to provide the services as above free of charge.

Agencies are not required to utilize Marc for this review; it is at their discretion.

Agencies must submit data without PHI for Marc's review; they must not submit any PHI to BDS Healthcare or Marc unless they secure a Business Associate Agreement.

Marc Berg, BDS Healthcare, agrees to not disclose, divulge, repeat, report or use for any purpose, any confidential information obtained, except as authorized by the home health agency, or as required by law. The obligations of confidentiality will apply during the term of this agreement and will survive indefinitely upon termination of this agreement.
